SUMMARY

Passionate and innovative Junior JavaScript Developer with a knack for streamlining processes and enhancing efficiency. With hands-on experience in the banking sector, I've honed my skills in JavaScript development and automation while contributing to a dynamic team environment. Excited to bring my unique blend of technical expertise and problem-solving skills to a collaborative team where I can continue to learn and grow.

PROJECTS

MarketableSkills 07/2023 - Present

Sofia, Bulgaria

- Enhanced a twitch streamer's revenue through integration of donation links and increased follower count using influencer links. Implemented prizes and awards, merchandise links, DLC recommendations, embedded videos, unit and faction challenges.

https://github.com/bobitsvetkov/tw-website

Connectify 05/2023 - 06/2023
